

Purpose

Technique PGSZMARO sets the number of MARO areas that appear on a single page of the MARO/MAPG/MAPI tables for Function MARO.

The PRTMARO Technique determines if the tables are to be printed out. If PRTMARO is not on then this Technique is not set.

Valid values are 25 through 36.

The Global default is 30.

This Technique is Universal.

Form of Input

PGSZMARO(integer)

where integer is a number from 25 through 36

Example

PGSZMARO(27)

Twenty seven MARO areas will be printed on each page of the MARO/MAPG/MAPI tables when Technique PRTMARO has been turned on.
